COMIREX-M-77
14 August 1969
Special Addendum No. 2

COMIREX-M-77 Special Addendum No. 2

In view of the fact that no COMIREX meeting was held on 28 August 1969, a special addendum is published to cover the reports on aircraft activities of the Far East and Cuba.

Report on Aircraft Activities--Far East

()

25X5X1

1. IDEALIST/TACKLE Mission C169C was flown on 17 August 1969. This mission covered an area along the east coast of Hainan Island to the Foochow area.
2. IDEALIST/TACKLE Mission C199C was flown on 24 August 1969. This mission covered the Shantung Peninsula and the Port Arthur area.
3. The present 303 Committee restriction of approaching no closer than 20 miles to the China mainland remains in effect.
4. Action on two priority South China/North Vietnam requirements is reported below:
 - a. Surveillance coverage was reported on Lines of Communications (LOC) pertinent to the introduction of Chinese forces into North Vietnam (see COMOR-D-25/207, 4 March 1966). The number of LOC priority targets in South China and North Vietnam remains at 349. For the period 21-27 August 1969, surveillance coverage was reported on three priority targets in North Vietnam. The specific targets are identified by underlining in Tab A.
 - b. Coverage of North Vietnam to detect the possible introduction or deployment of offensive missile systems (see COMOR-D-25/200, 23 May 1967, and COMIREX-D-25.3/2, 20 November 1967) is shown on the grid map at Tab B for the period 14-20 August 1969. Six BUMPY ACTION missions flown during this time period and reported as successful have not been included. No SSM activity was observed.

NRO review(s)
completed.

Report on Aircraft Activities--Cuba

25X1

5. For the 56-day period beginning 3 July 1969, seven OLD HEAD missions were flown over Cuba and provided 94.7 percent coverage of the area. During this period 169 of the 186 targets in Cuba were covered completely on cloud-free photography, not including the most recent mission flown on [redacted]

Special Addendum No. 1

COMIREX-M-77 Special Addendum No. 1

In view of the fact that no COMIREX meeting was held on 21 August 1969, a special addendum is published to cover the reports on aircraft activities of the Far East and Cuba.

Report on Aircraft Activities--Far East

1. Action on two priority South China/North Vietnam requirements is reported below:

a. Surveillance coverage was reported on Lines of Communications (LOC) pertinent to the introduction of Chinese forces into North Vietnam (see COMOR-D-25/207, 4 March 1966). The number of LOC priority targets in South China and North Vietnam remains at 349. For the period 14-20 August 1969, surveillance coverage was reported on 21 priority targets in North Vietnam. The specific targets are identified by underlining in Tab A.

b. Coverage of North Vietnam to detect the possible introduction or deployment of offensive missile systems (see COMOR-D-25/200, 23 May 1967, and COMIREX-D-25.3/2, 20 November 1967) is shown on the grid map at Tab B for the period 7-13 August 1969. Four BUMPY ACTION missions flown during this time period and reported as successful have not been included. No SSM activity was observed.

Report on Aircraft Activities--Cuba

2. For the 56-day period beginning 26 June 1969, seven OLD HEAD missions were flown over Cuba and provided 91.1 percent coverage of the area. During this period 172 of the 186 targets in Cuba were covered completely on cloud-free photography.

4. [] reported attempts to satisfy two
priority requirements in South China/North Vietnam as follows:

a. No surveillance was reported on coverage
of Lines of Communications (LOC) pertinent to the
introduction of Chinese forces into North Vietnam (see
COMOR-D-25/207, 4 March 1966) during the period
7-13 August 1969. The number of LOC priority targets
in South China and North Vietnam remains at 349.

b. Coverage of North Vietnam to detect the possible
introduction or deployment of offensive missile systems (see
COMOR-D-25/200, 23 May 1967 and COMIREX-D-25.3/2,
20 November 1967) is shown on the grid map at Tab B for the
period 31 July - 6 August 1969. Six BUMPY ACTION missions
flown during this time period and reported as successful have
not been included. No SSM activity was observed.

Section III (Subcommittee and Working Group Reports)

Note: Some material presented by Subcommittee and Working Group Chairmen is reported in Section IV, because actions are involved, instead of in this Section.

Report from Exploitation Research and Development Subcommittee

25X1

25X1A

25X1A

1. [] reported that on 6 August EXRAND agreed to establish a subordinate body which would be devoted to the single subject of coordinating joint procurement within the exploitation community. The Chairman, EXRAND, informed members that this committee would be under the chairmanship of Major Wesley Owens of the Air Force. [] informed COMIREX that he and his committee regarded themselves as extremely fortunate in having the services of Major Owens. He hoped at an early opportunity to introduce Major Owens to COMIREX and afford him an opportunity to describe the objectives of his team. Draft terms of reference are attached to this memorandum (Tab F). At this point, these are sent to you informally and for information. This office plans to talk further with the Chairman, EXRAND, about the objectives, prior to discussion at COMIREX.

Section IV (Action Items)

Status Report on Program for Planning Exploitation, FY 1971-1975
(COMIREX-D-31.5/3)

25X1

25X1A
25X1A

1. The Chairman advised that he had put this item on the agenda because the NTP calls for USIB approval of a program to be ready not later than 1 October of each year. To meet this date, COMIREX had asked that [] develop and submit the program for COMIREX review and approval not later than 1 September. [] expressed interest in EXSUBCOM progress and any views that [] might wish to express on the support he has received from the community. The Chairman, EXSUBCOM, observed that at the moment vacations have disrupted progress and this coupled with a number of uncertainties regarding the current NRO schedule would suggest postponement to some date considerably later than 1 September. [] agreed that it would be totally impractical to try and meet the 1 October deadline and he doubted that in view of possible changes in NRO launch schedules the guidance would be very useful. The Chairman agreed to a delay but requested that all members concentrate on identifying elements of guidance which would be useful or practical in terms of an exploitation program, even though it might require considerable readjustment in terms of the operational uncertainties acknowledged by []. [] indicated that in dealing with a five-year program there will always be uncertainties but the community cannot deny or unduly procrastinate on guidance based solely on such uncertainties. Money will continue to be spent on exploitation programs and these expenditures must bear a practical relationship to our future collection expectations.

EXSUBCOM RECOMMENDATIONS

1. Reaffirm the concept of "Selective Area Printing" for centralized processing/printing of nationally acquired film.
2. Request NRO and its film processing elements to continue investigating efficacy of centralized "Selective Target Printing".
3. Request EXRAND to investigate the feasibility of developing equipment which provides imagery interpreters an individual capability to produce exploitation quality Selective Target Prints.
4. Request EXSUBCOM to review during August and September 1969 the COMIREX Staff Simulated Requirement No. 1 (and No. 2 when made available) for possible use in developing film options that are responsive to community operating needs.
5. Request EXSUBCOM to establish and promulgate during September 1969 a coordinated community graphical delineation of selected geographic areas as the standard parameters for developing and maintaining coordinated film processing/distribution requirements.
6. Request EXSUBCOM, in consonance with the graphic delineation of selected geographic areas, to establish and promulgate by 1 November 1969 coordinated community requirements for nationally acquired film.
7. Request NRO to implement by 1 January 1970 this restatement of film distribution requirements for all nationally acquired film. This will allow the processors and customers to evaluate and modify the requirements with known systems prior to the receipt of [] []

TERMS OF REFERENCE

EXRAND Procurement Coordinating Team

MISSION:

Pursuant to the objectives of the EXRAND Subcommittee which provides the mechanism for free exchange of information on exploitation and processing equipment in order to promote savings, standardization and dissemination of technical information, the Procurement Coordinating Team of the EXRAND will:

1. Advise and assist the EXRAND in creating an effective interface of procurement data to facilitate economy of operation and to satisfy mission objectives for the intelligence community.
2. Provide a focal point wherein procurement data may be disseminated from using organizations to the EXRAND.
3. Develop procedures whereby procurement actions may be coordinated to mutually assist all users in securing standardized equipment in large buys to result in procurement savings for the United States Government.

FUNCTIONS:

1. Compile and provide to EXRAND, lists of those items planned for purchase by agency/DOD components which offer potential dollar savings through joint-procurement.
2. Provide to the various agencies/DOD departments, through their EXRAND membership, planning information in regard to new exploitation and processing equipment in the R&D phase for future procurement planning.
3. Compile unsatisfactory report (UR) data from the users regarding equipment performance for distribution to the EXRAND members.

4. Compile and disseminate test and evaluation (T&E) data to EXRAND regarding new equipment so that users may insure that it will satisfy their needs prior to procurement action.
5. Provide recommendations to EXRAND concerning suitable replacements for equipment found to be obsolete or obsolescent.
6. When appropriate, recommend sole-source procurement on specific items of equipment to the EXRAND membership.
7. Remain cognizant of the workings of the EXRAND Technical Task Team and apply this information as necessary.
8. On a continuing basis, members of the Team will provide information on excess processing/exploitation equipment made available from the community which could be utilized by other organizations.

MEMBERSHIP:

1. The Procurement Coordinating Team will consist of the members/alternates of the EXRAND or their designated representatives.
2. The Chairman will be the member/alternate representing the United States Air Force.

PROCEDURES:

The Procurement Coordinating Team shall meet at the direction of the Chairman to fulfill the mission and functions stated above, but no less than quarterly.

AUTHORITY:

The Procurement Coordinating Team is a coordinating unit responsive to EXRAND. It shall receive direction from the EXRAND and normally provide its functions through its members.

5. In accordance with your suggestions, a review will be made of recent [] in an attempt to identify practical examples of items which meet indications/warning criteria and would benefit from accelerated and selective dissemination. The result of this review will be forwarded to you and your evaluation would be appreciated. It is anticipated that mutually beneficial adjustments in criteria, target areas and alerting procedures can be accomplished after some experience with the requested reporting. These target areas have been postulated in accordance with present overhead reconnaissance capabilities and are not the same as those which might be recommended for systems with improved frequency of coverage and reporting capability.
